REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: none of the prior art of record fairly discloses or renders obvious the claimed method of preparing a reduced dye within the claimed range by electrochemically in the presence of a mediator, where the dye to be reduced is fed a little at a time and not all at once.

The prior rejection discloses many of the limitations of the process, however, as stated in the response the concentration of the prior art is well below the claimed range. Further the step of feeding the dye a little at a time and not all at once is not disclosed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
